

OUT OF THE SHADOWS

CHANDELIER COMPANY

**Individually designed hand-crafted chandeliers
made to order in my Studio in Ashburton.**

Each chandelier is unique. The glass drops are cut
and then fused in a kiln before being
strung onto a steel frame.

Two finishes are available: clear and frosted.

Frosting is a process whereby the surface of the
glass is treated to give it a matt, 'seaglass'
effect. These chandeliers give a glow
rather than lighting up a room.

The frames are produced by established local
artist-blacksmith Rob Hills, and feature a
fixed bayonet bulb fitting only.

We recommend that you ask a qualified
electrician to wire and hang the light.

specifications (approximate)
